

## MA Green Festival

At MA's Green Festival this year, we would like to have a booth where people can bring in their old, toxic makeup, make art out of it, and then have it replaced with green, non-toxic makeup. Our goal is to replace students' harmful products with new things, have them find out that it works just as well, if not better than their old stuff, and then the next time they go to the store to buy new makeup, they will look for the non-toxic brands. Know of anyone that can help?
